# Play the Scholarship Odds

**1** **The College(s)** you're going to attend. Don't forget to also apply separately to the department you will be in at the college (e.g., Music, Education, IT, Nursing, etc.)  
The best odds at 1 to approx. a couple of hundred.

**2** **Local & Regional sources.** A Gallup Organization study found that 85% of scholarships received by college students are from the local community.  
The second best odds at 1 to between approx. 500 - a thousand or so.

**3** **National Scholarships.** Very competitive. You'll have to really knock their socks off to be a contender.  
The worst odds at 1 to approx. tens of thousands.
