ACADEMIC MACE

The academic mace — a symbol of the college’s creation and mission — will be included in the proceedings. In accordance with centuries-old academic rituals, an academic marshal will lead the processional and position the mace on the dais.

In keeping with the college’s inclination toward strong faculty and student engagement, Collin College’s mace was designed and crafted by Sculpture Professor Luke Sides in collaboration with Jimmie Arledge, a Collin College art student. The mace measures 43 inches long, weighs about 15 pounds, and is sculpted from wood that was preserved from a fallen cottonwood tree at the college’s founding campus in McKinney.

A bronze cast of the district seal sits atop the mace and includes the college’s core values: Learning, Service and Involvement, Creativity and Innovation, Academic Excellence, Dignity and Respect, and Integrity. The seal is cradled in a bronze crescent above a three-quarter sphere, symbolic of the college’s commitment to these ideals.

Encompassing the mace’s center, an additional bronze band signifies the continual, unbroken pledge of the college toward its mission as a student- and community-centered institution committed to developing valuable skills, strengthening character, and challenging the intellect. A bronze sphere at its base represents the strength of Collin College’s academic programs, people, and partnerships.

ACADEMIC REGALIA

The custom of recognizing the accomplishments of scholars through distinctive dress, color, and ceremony began in the Middle Ages and has been adopted by various academic institutions throughout the world. American academic regalia developed from English traditions, specifically at Cambridge and Oxford, and have been in continuous use in this country since colonial times.

Each institution of higher learning in the United States has a unique system for identifying different academic degrees. The variety of regalia seen in the faculty procession arises from the fact that each university has its own distinguishing customs. The differences in the regalia of the faculty members represent the variety of institutions from which they are graduates and the different degrees they earned. The hood derives from the cloak, which in medieval times was worn over the gown much as we now wear an overcoat. Attached to the cloak at the back of the neck was a hood, which could be pulled over the head for warmth. After a time, this hood became a separate article. When caps and hats came into fashion in the 15th century, the hoods became merely ornamental, draped over the shoulders and down the back.

The academic cap was a later development. It was first conferred as a symbol of the master’s degree. Some caps were stiff, some soft, some square, and some round with a tuft in the center. The tassel of today is an elaboration of the tuft. Round caps are still used at some institutions. The “mortar board” style comes to us from Oxford. The American system for gowns also came from Oxford.

The master’s gown has long, pointed sleeves, and the doctor’s gown has closed sleeves, each with three bars of velvet and velvet facing. Like the use of velvet, the gold tassel on the cap is reserved for doctors and presidents. The pageantry and color at commencement exercises reveal a record of academic achievement of the individuals taking part in the ceremony.

Graduates earning an associate degree or certificate wear a Collin College branded blue cap and gown, while graduates earning their bachelor degrees are distinguished by the addition of a white band on their cap and sleeves. Veteran employees and veteran graduates wear white stoles, honors graduates wear honors ropes, and members of Phi Theta Kappa International Honor Society wear gold stoles.

COLLIN COLLEGE Programs

Bachelor's Degree Programs:

Bachelor of Applied Science in
Clinical Operations Management
(BAS)

Bachelor of Applied Science in
Construction Management (BAS)

Bachelor of Applied Technology
in Cybersecurity (BAT)

Bachelor of Applied Technology
(BAT) in Software Development

Bachelor of Science in Nursing
(BSN)

Associate Degree Programs:

Associate of Arts (AA)/Associate of Science (AS) in General Studies with Areas of Emphasis in:

Accounting

Agriculture

American Sign Language
(Deaf Education)

Anthropology

Art (Painting, Sculpture, Drawing,
Ceramics)

Biology

Chemistry
