

Student Computer Labs

Student Computer Labs provide currently enrolled Collin College students with access to an open computer lab on campus for college-related work. Students have unlimited access to the computers in these labs but will be required to use the institutional printing system, which gives each student a printing credit that is charged at a rate of 10 cents per page for black-and-white printing and 25 cents per page for color printing up to \$30. After this credit is used, students will have to pay the per-page price to print. Locations and schedules for the Student Computer Labs at each campus are available online at www.collin.edu/department/computernetworking/openlab.html.
